STILL NEED HELP?

Come to the club house concierge desk or give us a call at (772)-345-9312 and we will be happy to assist!

As part of our commitment to maintaining beautiful and healthy landscapes, we've been hard at work enhancing your outdoor spaces this season. Here's a quick update on the latest services we've completed for you:

Fertilizer

We applied a liquid fertilizer and weed control which is essential for maintaining a healthy and vibrant landscape. Fertilizer provides your turf with the necessary nutrients to promote strong growth, improve root development, and enhance resistance to diseases and pests. We ensure that your lawn receives the right balance of nutrients, to encourage lush, green growth and increased overall health. On the other hand, weed control helps remove weeds from competing with your grass for water, sunlight, and nutrients. Doing this may also result in some bare areas where the weeds will no longer be present. By reducing weed growth, you can ensure that your turf receives the maximum benefits from your fertilizer, resulting in a more robust, aesthetically pleasing, and low-maintenance landscape. Together, fertilizer and weed control create the foundation for a thriving outdoor space.

Irrigation

As the warm months approach, it's crucial we keep a close eye on your turf to ensure it remains healthy and resilient throughout the heat. Grass can become stressed during prolonged periods of high temperatures and dry conditions, leading to browning, thinning, or even patchy areas. Regularly monitoring your turf allows us to detect early signs of stress, such as wilting or uneven growth, and take action before the damage becomes extensive.

For all your personal landscaping needs like custom landscape designs, plant additions and retaining walls (we can provide 3d renderings) please feel free to reach out to our Sandra and schedule a date/ time for the estimate (352)-664-7801

We maintain a proper watering schedule, mowing height, and provide necessary nutrients will help your turf thrive, while also ensuring it can withstand the challenges of the summer heat.

Trimming

The growing season is starting to progress. You may start to notice several plants in your landscape that are starting to grow and in need of trimming. Trimming your shrubs during their active growth period allows you to remove dead or damaged branches, reduce overcrowding, and improve air circulation within the plant. This not only enhances their overall health but also promotes better flowering and fruiting in certain species. By staying on top of shrub trimming, we will keep your landscape looking neat and well-maintained throughout the growing season.

Mowing

As summer is near, the mow schedule will reflect. We are now on weekly mowing starting April 1. This means that we will be mowing your turf every week from now until November. We hard edge your home every week and will soft edge every other. Blowing off all hard surfaces to help leave a clean aesthetic appearance.

If you do not want your Hibiscus, Panama Rose, Jatropha cutback, please contact the office so we can add a blue reflector, so they do not get cutback.

PET OF THE MONTH

Introducing Weston

Hi, my name is Weston and yes like “Weston, Florida.” I am six months old, and I don’t have a lot to say. My mommy is starting to take me on new adventures (car rides, spa days and just hanging out). Yes, I am very naughty and mischievous at home. I am also known at home as “Weston The Menace.” But at night we love to cuddle and waiting for our next day adventure. "
